Retention of Fall 2010 First-Time Freshmen

This study tracks the enrollment of 3,259 first-time freshmen that entered Baylor University during Summer and Fall 2010. Student data were examined for the period between Fall 2010 and Fall 2014. Summary information about retention and graduation rates is displayed by selected characteristics. Of the 3,259 first-time freshmen, 41 percent were males and 36 percent were students in racial and ethnic minority groups.

As depicted in Table 1, these first-time freshmen had the following enrollment pattern:

After entering the University in Fall 2010, 85.4 percent continued their enrollment in Fall 2011. In Fall 2012, 77.8 percent of the original students continued their enrollment.

Within three years after entering Baylor:

| | | |
|-------|---------|--------------------------------------|
| 61 | (1.9%) | had graduated, |
| 779 | (23.9%) | left the University (attrition), and |
| 2,419 | (74.2%) | remained enrolled. |

Within four years after entering Baylor:

| | | |
|-------|---------|--------------------------------------|
| 1,897 | (58.2%) | had graduated, |
| 811 | (24.9%) | left the University (attrition), and |
| 551 | (16.9%) | remained enrolled. |

Table 1 displays the general flow of enrollment for the first-time freshmen that entered Baylor in Summer and Fall 2010. These students are displayed by gender, racial/ethnic group, minority status, Baptist affiliation, Texas status, citizenship status, first generation college student status, legacy status, highest entrance test score*, high school class ranking, and academic index. Retention, attrition, and graduation rates are listed for this four-year period. The reader is reminded that the attrition statistics include those students who completely withdrew from school as well as those who elected to enroll at other postsecondary institutions. The table also appropriately accounts for those students who "stopped out" and later returned to reenroll in the University. A graphic summary of this enrollment flow across the entire four years is displayed in Figure 1.

Tables 2 and 3 display enrollment status by each of the following characteristics: highest entrance test score interval, high school class ranking, racial/ethnic group, and gender. Demographic data are also presented in the report "Profile of First-Time Freshmen, Fall 2009 and Fall 2010" *IRT Series*, Vol. 10-11, No. 33.

Provisionally Admitted First-Time Freshmen

Of the 3,259 first-time freshmen, there were 158 (4.8%) who were provisionally admitted to the University. (This excludes the athletes coded as provisional.) As depicted in Table 4, these provisionally admitted students had the following enrollment pattern:

* *Some students submitted scores for both SAT and ACT entrance tests. For this report, each student's highest SAT score was compared to the student's highest ACT score, and only the better score was retained.*

After entering the University in Fall 2010, 72.8 percent continued their enrollment in Fall 2011. In Fall 2012, 32.3 percent of these students continued their enrollment.

Within three years after entering Baylor:

| | | |
|----|---------|--------------------------------------|
| 3 | (1.9%) | had graduated, |
| 59 | (37.3%) | left the University (attrition), and |
| 96 | (60.8%) | remained enrolled. |

Within four years after entering Baylor:

| | | |
|----|---------|--------------------------------------|
| 62 | (39.2%) | had graduated, |
| 60 | (38.0%) | left the University (attrition), and |
| 36 | (22.8%) | remained enrolled. |

A graphic summary of this enrollment flow across the entire four years is displayed in Figure 2. Additional information about these 158 provisionally admitted students is displayed in Tables 5 and 6. Some of the subgroups are small and, therefore, retention and graduation percentages, as well as means and even medians must be interpreted accordingly. The information in these tables was included for general perusal by the reader, but no statistical analyses were performed. The formats of these tables are similar to those of Tables 2 and 3.

Entrance Test Scores and High School Class Quartile

High school performance and entrance test scores are the most important early predictors of student retention (Astin et al., 1987). Table 7 is a tabulation of the Fall 2010 first-time freshmen by entrance test score and high school class quartile. The top half of Table 7 displays the 1,489 students who had both an SAT score and a high school class ranking. The bottom half of the table shows the 1,203 students who had both an ACT score and a high school class ranking. Table 8 displays the four-year graduation rates for these two groups of students. For example, of the 214 students who had an SAT score of 1300 or more and were in the top ten percent of their high school class, 81.3 percent graduated from the University within four years.

Ending Cumulative GPA

Tables 9 and 10 display the ending cumulative grade point average (GPA) for first-time freshmen and provisionally admitted students. The GPAs are shown for the three groupings of student status – continuing students, non-returning students, and graduated students. The GPAs for the graduated students are higher than the continuing and non-returning students.

Notes:

- Numbers presented in the center section of this table are cell percentages. For example, for the row labeled "Graduated in 4 years" and the SAT column labeled "1100-1190," the percentage is 6.32. This cell percentage represents the percentage of the entire class; specifically, 6.32% of 3,259 first-time freshmen had an SAT score between 1100-1190 and graduated in 4 years.
- Some first-time freshmen submitted scores for both SAT and ACT entrance tests. For this report, each student's highest SAT score was compared to the student's highest ACT score, and only the better score was retained.

Table 3
Percentage of First-Time Freshmen of Fall 2010
by High School Class Ranking, Racial/Ethnic Group, and Gender

| | Row n | High School Class Ranking* | | | | | Total |

Continued

Notes:

1. Data reflect a student's status as of the census date for each semester. Graduation and attrition figures are cumulative. However, the table appropriately accounts for those students who "stopped out" and later returned to reenroll in the University.
2. Some students submitted scores for both SAT and ACT entrance tests. For this report, each student's highest SAT score was compared to the student's highest ACT score, and only the better score was retained.

*The provisionally admitted students presented in this table exclude athletes coded as provisional.

Notes:

1. Numbers presented in the center section of this table are cell percentages for the group of provisionally admitted first-time freshmen. For example, for the row labeled "Graduated in 4 years" and the column labeled "SAT 900-990," the percentage is 9.49. Specifically, 9.49% of the 158 provisionally admitted first-time freshmen had an SAT score between 900 - 990 and graduated in 4 years.

2. Some students submitted scores for both SAT and ACT entrance tests. For this report, each student's highest SAT score was compared to the student's highest ACT score, and only the better score was retained.

*The provisionally admitted first-time freshmen presented in this table exclude athletes coded as provisional.

| 30+ | 80.6 | 53.3 | 50.0 | 40.0** | - |

Notes: 1. Some cells represent a small number of graduates as denoted by asterisks: * n < 10; ** n < 5; *** n = 1.

2. Numbers presented in this table are cell percentages for the group of first-time freshmen shown in Table 7 who graduated within four years. For example, for the row labeled "1300+" and the column labeled "Top 10%," the percentage is 81.3. Specifically, 81.3% of 214 students had an SAT score of 1300+, a Top 10% class ranking, and graduated within four years.

3. Some students submitted scores for both SAT and ACT entrance tests. For this report, each student's highest SAT score was compared to the student's highest ACT score, and only the better score was retained.
